

Woodman School Council Meeting Agenda

May 13 at 6pm – in person and online

- Welcome and land acknowledgement
- Introductions – chair (Tara) and administration (Marlene and Brian)
- Marlene to welcome everyone
- Housekeeping notes – washrooms, goodies, questions can be put into the chat online and will be moderated by Brian, agenda to follow the presentation
- Tara to introduce Dr. Eaton:
 - Dr. Sarah Eaton, PhD, is an associate professor at the Werklund School of Education at the University of Calgary. Dr. Eaton is an award winning educator, researcher, and leader. She leads transdisciplinary research teams focused on the ethical implications of advanced technology use in educational contexts. Dr. Eaton also holds a concurrent appointment as an Honorary Associate Professor at Deakin University in Australia. We are so very fortunate to have Dr. Eaton with us this evening.
 - Teaching, learning, and assessing have become increasingly complex with the emergence of generative artificial intelligence (Gen AI) apps and tools that students can access freely or at a low cost. In this talk, Dr. Eaton provides insights into how Large Language Models (LLMs) such as ChatGPT and similar apps are impacting education. Dr. Eaton will share insights from a recent research project she is leading at the Werklund School of Education (University of Calgary). This session is not about how to use specific tools. Instead, we will delve into the broad ethical and practical implications of AI for education. We'll also talk about how GenAI can help neurodivergent students and those with learning difficulties.
- Special Presentation – Artificial Intelligence and Education: A Conversation With Educators and Parents

- We will now begin our brief School Council meeting. I would like to encourage any Woodman families to stay.
